

Fetter Yard, 86 Fetter Lane, EC4

Fetter Yard has been comprehensively refurbished around the new landscaped courtyard. The last remaining space, after all of the upper floors have now been let, is the self contained ground and lower ground floors, providing circa 15,500 sq ft of high quality space. The unit is accessed via its own entrance directly off the newly landscaped courtyard which offers communal seating and provides the perfect space for client entertainment, staff drinks, yoga or other wellness activities. The space suits a variety of uses and can also benefit from easy loading access directly from the car ramp and car park.
